

FIBER OPTIC CABLE ASSEMBLIES MANUFACTURER

Custom made fiber optic assemblies

Selection of latest generation fibers, jacket and connectors consistently and successfully establish your product on the market.

PROFILE

O-m6 Technologies is a leader in the manufacture of fiber optic assemblies. Founded in 1996, we were quickly recognized by **Telecommunication and Photonic** firms for our technical expertise and we rapidly earned an excellent reputation for the quality of our products.

Our production plant can respond rapidly to large and average orders for conventional cable products as well as **optical patchcords, pigtailed, and multifiber cables**.

Our custom assembly division can respond just as quickly to small or average size orders in the following product categories:

- Specialized fiber cables, including **PM, Puremode, custom cables**
- Cables with specialized jackets such as **loose tube, flexible jackets, metal jackets**
- Custom terminations such as **ferrules and connectors**
- High-technology assemblies including **Si-V array blocks, polishing of bare fiber, metallization assemblies**
- **Custom cables and cable harnesses**

O-m6 Technologies is a client-driven company. We deliver quality products on time and only when our shipment fully satisfies the client's expectations. Why not give us the opportunity to prove this to you...
