

TeraXion

Good day,

In preparation for ECOC 2011, TeraXion wishes to draw your attention to its new coherent communications products through **three white papers** presenting its enhanced value proposition. These products are specially designed for applications such as dispersion emulation and ≥ 100 Gb/s solutions.

- [Narrow-linewidth semiconductor lasers: one technique does not fit all](#)
- [Ultra-low-loss dispersion emulators: 50 000 ps/nm—the size of a shoe box](#)
- [Silicon Photonics : A new technology platform at TeraXion](#)
- [Send me all three documents](#)

MEET US AT ECOC!

Palexpo, Hall 1, booth #1162

If you wish to meet the TeraXion team at ECOC, in Geneva (Switzerland) please send us an e-mail at coherent@teraxion.com

Thank you!

Martin Guy, Vice-President of Technology

Feel free to forward this e-mail to your colleagues!
